## INSIDE THE MINDS OF

### STAFFING IN THE DOCTOR'S CHOICE HOME HEALTH

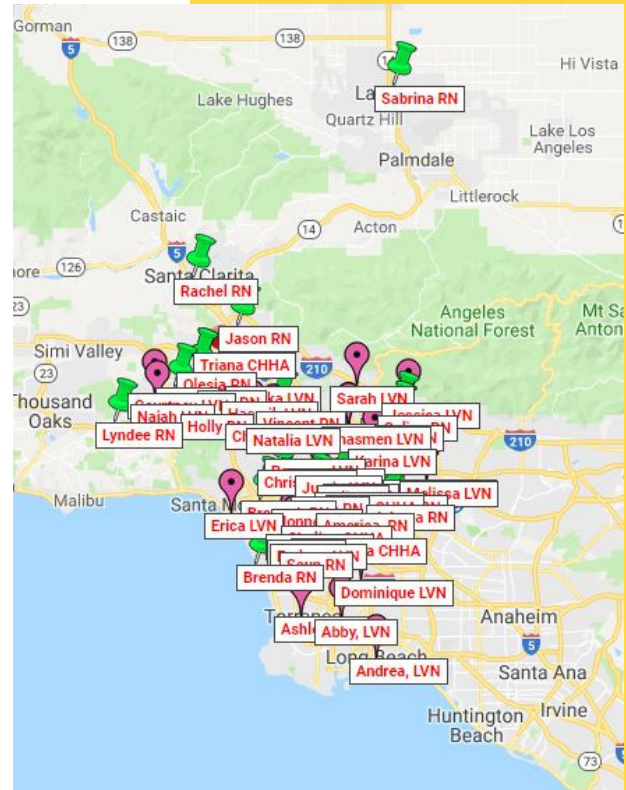

Staffing at The Doctor's Choice is one of the most challenging, yet exciting roles in the company. Three amazing ladies; *Jessica Cardenas, Griselda Covarrubias, and Briana Browning* know exactly how important it is to deal with patients day to day in order to coordinate patient care, offer in home services, and to make patients and family members know they are in good hands. Their main priority as a Staffing team is to make The Doctor's Choice Agency the BEST of the BEST.

This department has gone above and beyond through all the challenges they have faced. They improve their teamwork by working together to resolve obstacles, provide daily encouragement, and treat all patients like family.

Healthcare staffing is critical to patient satisfaction because they are primarily responsible for the patient's care experience. They match the patient's needs and personalities with the appropriate skilled nurses. Staffers overall are willing to provide the services patients need for a successful recovery within the comfort of their home or skilled facility.

## Say HELLO to *PinMaps*!

Our skilled nursing demand has increased rapidly over the years. *PinMaps* allows us to input the patient's zip code and find nurses in surrounding coverage areas. We understand the difficulty of finding nurses for specific locations. With that being said; we are happy to announce our new software - *PinMaps* - for better staffing and recruitment.
